STORY

With over 70 years of experience, our company leads in sustainable textiles. Starting with organic cotton fibers, we expanded to produce organic and recycled cotton yarns and fabrics. Supported by our vertical set up of 14 ICS farms, ginning, spinning and weaving facility all under one roof. We focus on quality and eco- friendly practices. With our Murata Family together we are trying to weaving a future where sustainability and growth coexists in harmony.

VISION

To drive global change by replacing conventional textiles with sustainable alternatives, increasing the use of organic and recycled products, empowering our customers to adopt eco-friendly choices, and contributing significantly to a greener future for all.

MISSION

To revolutionize the textile industry by crafting genuine sustainable, fully traceable, and high-quality cotton products while empowering farmers, minimizing environmental impact, and delivering value-driven solutions to global textile markets.

ORGANIC UNIT

FARMING

- 14 ICS Farms
- 7000 Farmers
- 28000 Hectares
